#### Main Menu

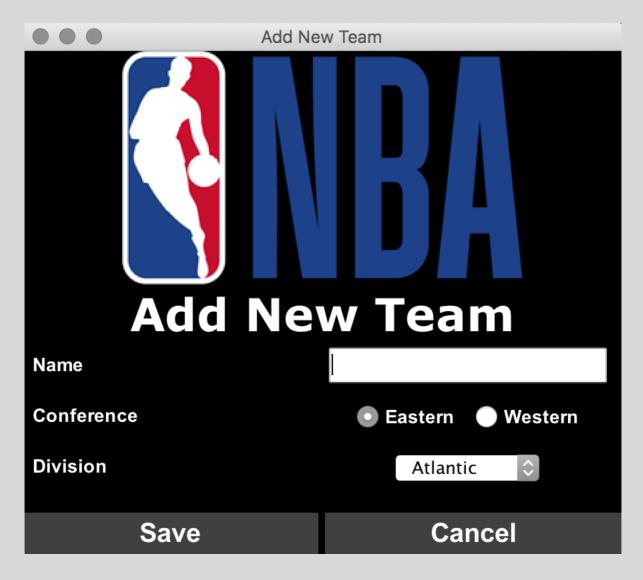

- 1. Teams will close this menu and open up the Teams Menu.
- 2. Players will close this menu and open up the Players Menu.
- 3. Coaches will close this menu and open up the Coaches menu.
- 4. Backup Database will back up all data from the database to binary files on the computer. It is recommended to backup the database this way at the end of each session in the application.
- 5. Restore Database will take the data from the backup files on the computer and add each Player, Coach, and Team to the database. This only needs to be done if the database has been compromised.
- 6. Help opens this file.
- 7. The top left button on the window frame is the only way to exit the program.

## Team Menu

- 1. Add a Team will close this menu and open a new window to input details for a new team.
- 2. View Teams will close this menu and open a new window with all teams in the database displayed in a table.
- 3. Back will close this menu and go back to the Main Menu.

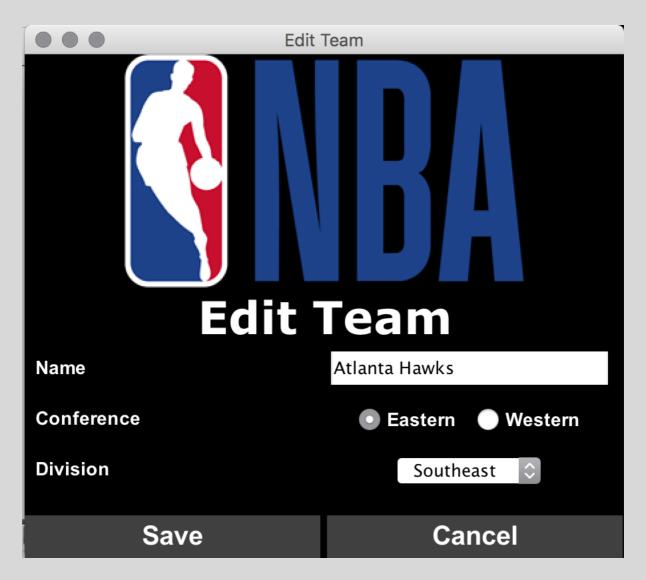

- 1. Enter a unique Team Name into the text input box. The name must not contain numbers or more than 3 whitespaces.
- 2. Select the Conference (Eastern or Western).
- 3. The Division select menu will change depending on the Conference selected.
- 4. Select the appropriate Division from the select menu.
- 5. Click Save to save the Team to the database. If user input is invalid, a message will display.
- 6. Click Cancel to return to the Team Menu and not save a new Team to the database.

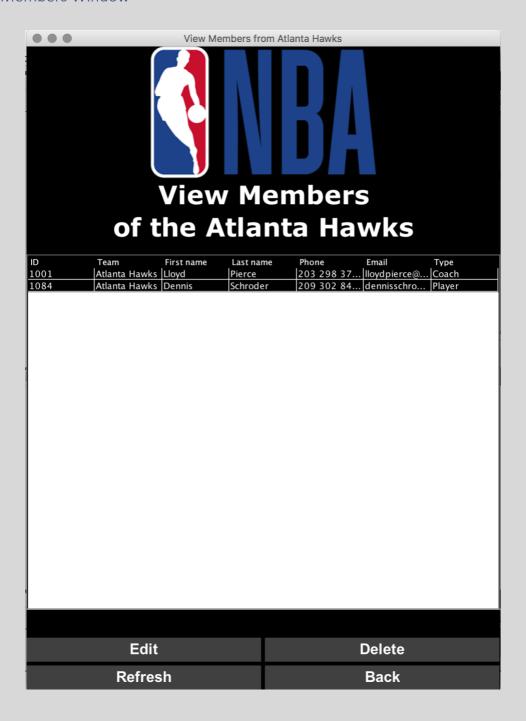

- 1. Select a Team and then click Edit Team to edit the Team details.
- 2. Select a Team and then click View Members to view coaches and players that belong to that Team.
- 3. Select a Team and then click Delete Team to delete the team from the database. This can only be done if there are no players and coaches associated with that Team. If there are, an error message will display and the Team will not be deleted.
- 4. Click Refresh to refresh the table after a Team has been edited.
- 5. Click Name on the table to sort Teams by Name.
- 6. Click Conference on the table to sort Teams by Conference.

- 7. Click Division on the table to sort Teams by Division.
- 8. Click Back to go back to the Team Menu.

#### **Edit Team Window**

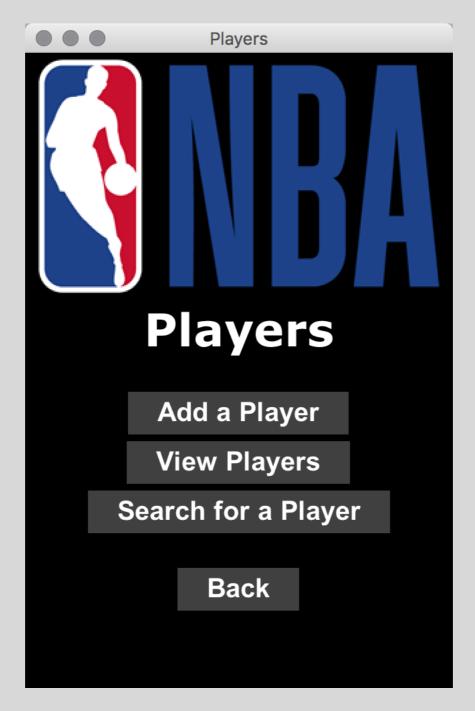

- 1. The Team Name, Conference, and Division will be displayed in the input areas.
- 2. The Team Name is not editable because it is the unique field for each Team in the database.
- 3. The Conference and Division can be changed.
- 4. Click Save to save the changes made to the database.
- 5. Click Cancel to close this window and return to the View Teams window.

- 1. Coaches and Players from the selected Team are displayed with limited data for each.
- 2. Select a Coach or Player and then click Edit to edit the details in a new window.
- 3. Select a Coach or Player and then click Delete to delete the member from the Team and database.
- 4. Click Refresh to update members after editing.
- 5. Click Back to close window and return to View Teams window.

# Player Menu

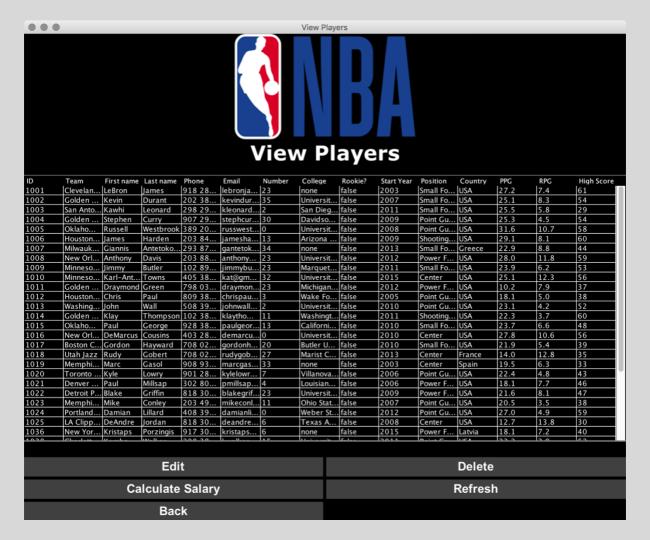

- 1. Click Add a Player to close this menu and open a new window to add new Player details to the database.
- 2. Click View Players to close this menu and open a new window to view all Players in the database.
- 3. Click Search for a Player close this menu and open a new window to search for a Player in the database by last name.
- 4. Click Back to close this menu and return to the Main Menu.

#### Add a Player Window

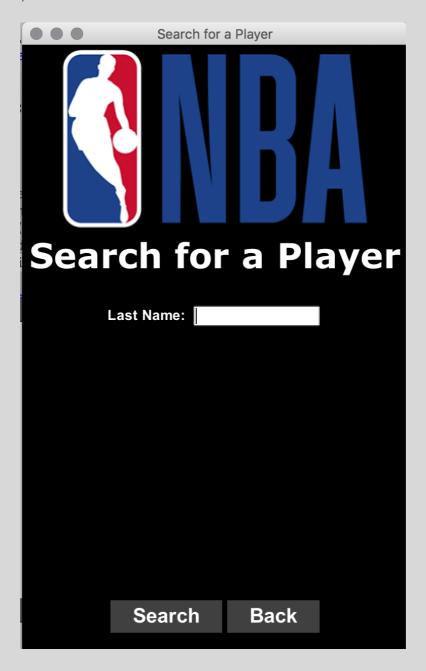

- 1. ID must be unique, must not contain spaces, and must be at least 4 characters.
- 2. The Teams are listed in a select menu and are taken from the database.
- 3. First and Last names must not contain numbers, must be more than 2 characters each, and cannot contain more than 3 spaces each.
- 4. The phone must be only numbers or spaces and must be between 10 and 15 characters.
- 5. The email cannot contain spaces, must be between 6 and 60 characters, and must contain both '@' and '.' to be valid.
- 6. The Player number must be a number and must be 1 or 2 digits.
- 7. The college must not contain numbers and must not have more than 4 spaces.
- 8. Rookie this Year asks whether the Player is a rookie in the current or upcoming season.
- 9. Year Started must be a valid 4 character year.
- 10. Position is a select menu with the 5 possible positions.
- 11. Country of origin is a select menu with over 40 possible countries to choose from.
- 12. PPG and RPG must be in the format '18.4'.
- 13. Highest Score must be between 0-100 and must be an integer.
- 14. Click Save to save the player information. If any input is invalid, a message will display.
- 15. Click Cancel to close this window and return to the Player menu.

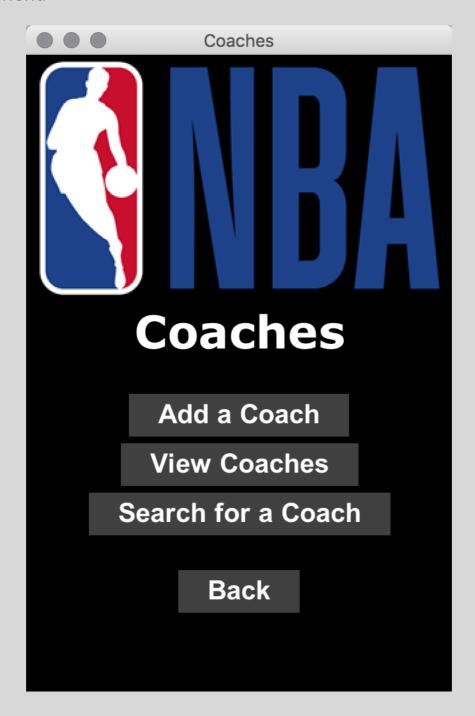

- 1. Click any of the field names in the table to sort the Players by that field.
- 2. Select a Player and then click Edit to open a new window to edit Player details.
- 3. Select a Player and then click Delete to delete Player from the database.
- 4. Select a Player and then click Calculate Salary to display Player salary.
